

## PharmLabs San Diego Certificate of Analysis

3421 Hancock St, Second Floor, San Diego, CA 92110 | License: C8-0000098-LIC  
ISO/IEC 17025:2017 Certification L17-427-1 | Accreditation #85368

Sample **Modern Trees Lemon Cherry Gelato disposable  
vape cart 1:1**

Sample ID	SD220518-048 (48421)	Matrix	Concentrate (Inhalable Cannabis Good)
Tested for	Pacific Manufacturing and Design		
Sampled	-	Received	May 18, 2022
		Reported	May 23, 2022
Analyses executed	CAN20, RES, MIBIG, MTO, PES, HME, FVI		Unit Mass (g) 1.0

UI Not Identified

**Laboratory note :** The estimated concentration of the unknown peak in the sample is 5.6% | Currently PharmLabs laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated D8 products) from which we believe to be either (+)d8-THC or d9-THC. At this time there are no reference standards available for (+)d8-THC. (+)d8-THC is a different compound from the main (-)d8-THC cannabinoid and, therefore, these two compounds may have different efficacies. Using the most advanced instruments and techniques available, the separation of (+)d8-THC and d9-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (+)d8-THC and d9-THC with the majority, if not all, of the concentration being (+)d8-THC.

## CAN20 - Cannabinoids Analysis

Analyzed May 23, 2022 | Instrument HPLC

Measurement Uncertainty at 95% confidence 7.806%
